

MACROVISION DMR PRODUCT REQUEST FOR REVIEW FORM

Instructions

This form is used for requesting approval of new model(s) which use the same *Solution* and is the same Product Type as a previously-certified model.

If this product is a combo STB/DVD product, please e-mail DVD_TEST@macrovision.com for the correct forms.

Solution means the combination of the following elements:

1. Video standard (e.g., 625/PAL, 525/NTSC, etc.)
2. Macrovision-capable video encoder LSI type
3. 525p and/or 625p progressive scan video output capability
4. 525p and/or 625p progressive scan video encoder LSI
5. Portion of the firmware that controls the Copy Protection
6. Method used to control the Copy Protection
7. Filter or other circuitry located between the Macrovision capable video encoder LSI and the DMR product video output connector (if any exists in the product)
8. Video outputs (depends on the change)
9. Video inputs (depends on the change)
10. Whether a DVD Player/Recorder is included
11. Whether a Hard Disk Drive is included
12. Macrovision-detection circuit
13. Method used to updated the Copy Protection (if a Standard STB)

If none of the above elements changes, then the product is the same Solution.

Please send the following documents along with a completed Macrovision SRB Product Request for Review Form:

- JPEG of front and back panels of the unit including a clear picture of ALL video connectors (both digital and analog) and **Brand Name**.
- Sample Product notice page from the manual. An English translation will save time.
- Sample photo or manufacturing diagram of the Patent sticker.
- Sample of the Macrovision Installation Recommendations per agreement (**For a sample of the Drawing or Notice please e-mail stb-test@macrovision.com**), An English translation will save time.
- Block diagram of the unit. Please make sure that it includes ALL the Video Inputs/Outputs, encoder, decoder, Video Output Driver, Hard Disc Drive(s), digital Inputs/Outputs or if it uses a POD or CableCard.

Fill in the Request for Review form, **sign at the bottom**, and email to stb-test@macrovision.com Or FAX to 408-408-567-1804 (or 408-567-1800 in case of problems).

You may list more than one new model name in the “New Model Names/Numbers” field if all models are the same Solution and the same Brand.

If Macrovision finds that the new model(s) is the same Solution as a previously-certified model, we will send you a PDF letter of approval for the new model(s).

If we find that the new model(s) is a different Solution, we will ask you to complete a test form.

Request for Review can only be submitted **after** Macrovision has certified one product of the Solution.

Please allow two weeks for processing.
